Kaleidoscope K2

COUNTED CROSS STITCH CHART BY GRACEWOOD STITCHES

Kathy Bungard designer of Gracewood Stitches describes the pattern in her own words:

2nd in the Kaleidoscopes collection, 'K2', is stitched in bright jewel tones. One of the things I love about a kaleidoscope is its elusive nature. As you turn the scope images tumble into place creating an endless variety of shapes that will never come together exactly the same way again. K2 captures one of those moments before the next turn makes it vanish forever. Kathy Bungard

Creative Poppy says:

Sapphire, Ruby and Topaz combine in mirror effects to create an amazing pattern. The motif will look especially precious if, like the designer, you stitch your work on a fine count fabric. It will measure a couple of inches wide and will look great in a deep frame box. You can use our calculator below to make a decision on your fabric count, depending on the desired size of your finished piece.
