Once upon a Rose - Biscornu (wedding ring cushion)

CROSS STITCH PATTERN READY TO DOWNLOAD, DESIGNED BY Faby Reilly Designs

Created by Faby Reilly, this is a cross stitch pattern designed for a little biscornu cushion. It will hold the bride & groom's rings, ready for the wedding ceremony. It is an item that the couple will surely keep and cherish, long after they are married, and makes a memorable gift.

It is cross stitched on natural raw linen, on two separate squares of fabric. The pattern on the main side is a crown of white roses unfolding over the round curves of the biscornu. The biscornu is a fun shape to make with the 8 corners forming the sides and that alternate the front and back motifs.

The embroidery is embellished with seed beads and pearl sequins, forming arabesques and small hearts shapes in the background.

A complete tutorial is provided with the chart and will guide you step by step, with photos at each step.

A tutorial is included with the chart for all specialty stitches.
