## Lavender Bouquet Pouch

COUNTED CROSS STITCH CHART BY FABY REILLY DESIGNS

**Fantastic detail and clever design:** it's very rare to find a cross stitch pattern that is already designed to be assembled as a pouch. The stitched parts include both the side and parts of the base of the pouch. When mounted, the pretty stitched details show on all sides of the Octagon shape. Follow Faby Reilly's very detailed step-by-step instructions for assembly, the "Octagon pouch" tutorial, which you can download for free off our [stitcher resource page](#).

The beauty of this project is the exquisite stitching of the lavender flowers and butterflies, a clever combination of cross stitch, back stitch and French knots. No fewer than 14 colors are used to convey the delicate shadings of the flowers. All stitches are carefully explained and the charts are provided in two "layers", first the cross stitch, then all the embellishment stitches, which makes it particularly easy to follow.

The pattern includes a great number of French knots. If you are not familiar with them, or have found them tricky in the past, follow Faby Reilly's helpful advice: "Use your left thumb to keep the cotton near the knot nice and flat against the fabric while you thread your needle and the cotton through the knot".

This pattern is part of the [Lavender Bouquet](#) series that includes a humbug, a biscornu, a pouch, a needlebook and an ortbag.
