Faby Reilly - Magnolia Biscornu (cross stitch pattern chart)

Magnolia Wreath Biscornu

COUNTED CROSS STITCH CHART BY FABY REILLY DESIGNS

Here is one more flower to collect in Faby Reilly's exquisite series of floral biscornu designs for cross stitch. The magnolia branches are heavy with blossoming petals. The flower wraps beautifully around the biscornu shape, its curves emphasizing the flowers' own.

The design also includes some interesting specialty stitches such as Queen stitch and a Diamond eyelet over a sequin. Detailed stitch tutorials are included with the chart.

There are several ways to stitch this pattern. If you are planning to mount it as a biscornu, stitch the matching pattern for the back and find a nice button to sew through the center of the cushion to give it its curvy shape. You might alternatively want to frame it (it works either in a round or square frame, see photo).

There are now over a dozen patterns available in Faby Reilly's exceptional collection of floral biscornus. You're sure to find your favorite flowers.
