CROSS STITCH PATTERN READY TO DOWNLOAD, DESIGNED BY Perrette Samouloff

Brought to you by Perrette Samouloff these exquisite cross stitch motifs are evocative of vintage greeting cards. Each subject is treated with great delicacy, and often with humor, such as the little girl with her feet entangled in the ribbon of a giant Easter egg, or the coquette hen perched on the top of an egg.

If you stitch on 28 count linen, the most common needlework fabric size, the stitched piece will be just under 4 x 6 inch (10 x 15cm). It can be framed, or mounted on a card.

The patterns can be worked on white or ecru linen, except for the little hen which incorporates white stitches and must be worked on natural or colored fabric. The chart includes a few three-quarters of cross stitches, worked in a single strand, a process that the designer uses to create effects of transparency and volume.

There are [3 additional motifs](#) (sold separately) in the same series, with Easter chicks and rabbits.
