Small Christmas Gift Bags - Angel, Heats, Jacquard motifs

CROSS STITCH PATTERN READY TO DOWNLOAD, DESIGNED BY Perrette Samouloff

The trend is towards the personalization of gifts, right down to the packaging! So forget about paperwrapping and create your very own reusable Christmas gift bags, so delightful, they will be reused over and over.

Brought to you by Perrette Samouloff, the cross stitch charts come with two finishing options and carefully thought-through pouch tutorials that include extensive step-by-step instructions and photos.

Take the little violin-playing angel motif (so cute!): it has been applied to the bund shaped pouch. Its cylinder shape is ideal for housing chocolates or small objects (cosmetics, small preserves, toys...)

The Hearts and Jacquard designs have by contrast been adapted on a flat pouch model and can house a little book or any flat object.

Note: all three cross stitch designs are the same size and can therefore be adapted to either shape of pouch.

This is the first in the Small Christmas Gift Bags series, all the same size. Check out more patterns [here](#).
