Description:

Where the beach meets the sea (large pattern)

COUNTED CROSS STITCH CHART BY PERRETTE SAMOUILOFF

The stitched design shown here is the French version. The English version goes:

"so happy you will be
where the beach meets the sea..."

A poetic vision of the seashore, with children busy beachcombing, seagulls watching over them and sailboats in the distance. The pattern is stitched in a beautiful harmony of blues and greens all obtained from three gorgeous skeins of DMC Color variations. You'll enjoy watching the color develop in every stitch.

Perrette Samouloff is a master of detail. Within a few stitches she manages to depict the seagulls in a very realistic way, with just a tiny "three-quarter" stitch here and there, adding precision to the design. If you are not familiar with fractional stitches, we suggest you take a look at Perrette Samouloff's free tutorial where she focuses on those stitches. The "Three-quarter stitch" tutorial is available from our [free downloads page](#).

A cross stitch pattern by Perrette Samouloff.
