House in the Woods Sampler

CROSS STITCH PATTERN READY TO DOWNLOAD, DESIGNED BY RIVERDRIFT HOUSE

In the designer's own words:

Designed using simplified geometric patterns, the individual motifs are placed to give the effect of a larger, bigger picture. The border follows the same theme - a strong, geometric frame of repeating boxes and here I placed a random font alphabet running clockwise for a naive patchwork finish to suit the overall folk style.

Creative Poppy says:

There is a playful air to this sampler because of the way the house is constructed out of little blocks, and the frame out of cube-like letters, almost as if the designer was using play bricks.

Each motif or block is a single color which makes for quick and easy stitching and a yet a rewarding finished piece.

While strictly speaking not a Christmas sampler, the dominant red and green make it an attractive piece to display during the winter and holiday season.
