CROSS STITCH PATTERN READY TO DOWNLOAD, DESIGNED BY Tiny Modernist

Just as vinyls are making a comeback in music, now that everyone has access to digital photography, more and more enthusiasts are taking an interest in analog - or film - photography.

Skillfully pictured here in cross stitch, this cute compact Kodak camera from the sixties, all shiny silver steel and black leatherette, has all the beautiful details, such as the protruding rewind cranks and dials and elaborate lens. It almost looks real!

Cross stitched and mounted on a cushion, the design will give a trendy vintage touch to your home decor. It will make a fun and much appreciated gift too.
